## Education

---

California Polytechnic State University - San Luis Obispo, CA

Physics B.S. - June 2003

## Professional Experience

---

**TOMS** - Santa Monica, CA

November 2009 - Present

### Web Developer

First in-house dedicated web developer for TOMS. First task was to help launch the current e-commerce solution. Launched two international sites and created many custom modules to expand store functionality. Involved in the creation of event micro-sites and numerous internal technology projects. Third party & API Integration.

**imagistic** - Westlake Village, CA

August 2008 - November 2009

### Web Developer

Involved in a wide range of development tasks, all focused towards the production of custom, high value, websites. Customized CMS systems with new interfaces and templates. Responsible for accurate time estimates and code production. Technology contact point for project managers and clients.

**VREO Inc.** - San Luis Obispo, CA

August 2007 - August 2008

### Creative Director

Design department manager. Responsible for the creation of website designs, print media, and any associated collateral for VREO Inc. and its clientele. Maintained corporate brand identity through a scaled website system and collateral. Met with clients to shape their vision and needs into a functional design. Oversight of the design process from the first meeting to launch.

**VREO Inc.** - San Luis Obispo, CA

March 2004 - August 2007

### Systems Engineer

Responsible for internal systems maintenance and feature additions. Involved in the creation of dynamic web applications including CRM systems, data collection, and third party integrations into the VREO Inc. core applications.

**Self Employed** - San Luis Obispo, CA

2003 - March 2004

### Web Developer

Sub-contracted to provide custom e-business solutions. Shopping cart modification and backend customization.
